

FIRST STREET STREETSCAPE
ELECTRIC & UTILITY IMPROVEMENTS
City of St. Charles
ADDENDUM NO. 2
January 26, 2016

This addendum applies to the City of St. Charles Contract Documents and Project Specifications entitled: "First Street Streetscape Electric & Utility Improvements" dated January 15, 2016.

This Addendum forms part of the Contract Documents and modifies the original bidding documents as noted below. Acknowledge receipt of this Addendum on the Bid Form. Bids shall include all items included in this Addendum. This Addendum shall be stapled to the original Contract Documents which shall be included as part of the "SEALED BID DOCUMENTS."

Contract Documents

The following revisions/clarifications shall be made part of the Contract Documents, and shall be considered in preparing the proposal:

1. Excavation of the building foundation directly adjacent to the project extends into the ROW and is currently not backfilled. Prior to the start of work the excavation adjacent to the building will be backfilled by others (backfilling foundation excavation is not part of this contract). Washed stone may be used as backfill material for the foundation excavation. Some electric duct will be constructed within the overdig of the building foundation; primarily along Illinois Street. The potential need to sheet the side of the trench for concrete pour shall be considered incidental to the unit costs for duct installations. In accordance with the Instructions to Bidders the Bidder is required to visit the site and become familiar with existing conditions. All bid prices shall be based on these conditions.
